

Chapter 749 – 754 of Punished by His Love Novel

Chapter 749

“Yeah.” Suzi and Arron turned and walked away. On the other side, Christopher said that Lilly had already bought fruit candy and came back.

When the family of three and Christopher just walked to the elevator entrance, they heard noise in the box over there.

“A black-hearted family of three, I’m going to take your skin off!”

“Hit her!”

“Take her crippled!”

“Ms. Hu, come over, let’s hold it down for you, and you slap her in the face! This shameless thing turns her into a prostitute. You strip her clothes naked and throw her into the street!”

“Oh...”

“Ouch...”

Then, the door of the box was closed.

As for what happened in this hotel and how serious the situation was, Suzi and Arron didn't want to bother about it.

Back in the hotel, Arron asked Christopher to book a return ticket. In order not to affect their only sleep, they booked a flight at 12 o'clock in the morning the next day.

This evening, a family of three with Yan and Christopher, had a cozy little hot pot in the hotel room talking and laughing, and then slept beautifully, until waking up at 7 o'clock in the morning the next morning, having breakfast, and packing luggage, carrying his father's urn.

When they got off the elevator and came to the lobby, they saw a lot of people waiting outside the hotel.

Those people are all respectful.

The person standing at the forefront was grateful: "Thank you, Mr. Fu, your company has allocated 100 million yuan to our charity project. We have received it. Thank you very much."

Arron said flatly: "This is my spouse's hometown. If you have any needs in the future, you can apply to the Fu Group."

"Ok, yes, thank you so much."

Immediately after that, another person walked out behind that person and said something in Christopher's ear. Christopher kept nodding.

After that person left, another person stood out from the crowd, it was Hu Xiaomeng.

She burst into tears: "Mrs. Fu, thank you for the one million you transferred to me. I don't want the money. I will use all of it for the difficult children in my class. I will do my best to protect their young hearts. Don't be bullied."

Suzi nodded: "If you need it in the future, you can still come to me."

"Well, thank you, and if you are not here, I will take care of Grandpa Shen's family for you." Hu Xiaomeng said actively.

"Thank you so much, then." Suzi was very pleased.

I haven't been to my hometown in fifteen years.

The only unfulfilled wish is that the mother's whereabouts are unknown.

At 2:30 in the afternoon, they had already returned to Nancheng. On the way back, another driver specially sent the car to the airport. The driver who drove was still Christopher.

Christopher was familiar with the familiar road, driving fast and smoothly all the way, when Suzi was in Arron's arms and looked at the fast flashing scenery outside the window, she suddenly smiled: "I never thought Nancheng would be my hometown, I am here. I have lived for nine years, and this is the first time today. When I set foot on this land again, I felt a sense of intimacy.

I think I am finally back. "

Before the man spoke, the little dumpling sitting next to him spoke: "Of course, because my father and I are here, this is your home."

The little girl is unintentional, but she is also telling the truth.

"Well! Where are you and Dad, where is my home!" Suzi nodded heavily, and then continued to look at the scenery outside on Arron's shoulder.

The only sadness is the whereabouts of the mother.

Suzi's melancholy momentarily, coupled with the exhaustion along the way, she half-closed her eyes and rested on Arron's shoulder.

Until the car turned on the road to his own community, Suzi's sleepy eyes suddenly focused.

She sat up straight: "Arron, I...I saw that figure."

Chapter 750

Arron also looked out the window instantly.

Even Christopher suddenly braked.

"Where?" Arron asked gently.

Suzi rubbed his eyes: "I..."

Where is that figure?

Why is it gone?

She obviously didn't blink her eyes, why is it gone?

Arron: "..."

He raised his arms around his wife, and kissed her distressedly: "Sometimes no news is the best news. Your mother is a strong person. When you were a child, your father was sick, and your mother was able to withstand so much pressure. To survive, when she was imprisoned by Jarod, she knew how to use her to influence others and let the Lin family's domestic helper let her go.

That means your mother is not so easy to compromise with reality.

Just like you, your personality depends on your mother.

Don't you also never bow to fate? "

Suzi nodded: "Well, I know Arron."

Because of her husband's consolation, her mood suddenly became brighter.

Yes, no news is the best news.

Back home, it was not time for dinner. Suzi and his children were exhausted, so they washed and slept for an afternoon, but Arron couldn't be as leisurely as his wife and daughter.

He needs to deal with a lot of company affairs.

There is also the matter of Suzi.

Seeing the mother and daughter sleeping soundly, Arron came to the top floor and took out his mobile phone and called Christopher.

On the other end, Christopher immediately said: "Siye, the tramp that the lady said of her mother who looks like her mother has indeed wandered around your residence several times recently, but the tramp is very clever, she always sees the dragon. The first and the last, from yesterday to now, the people I sent out looked for, but they didn't find any clues."

Arron: "..."

After a few seconds of silence, he said: "A woman who can escape from Jarod's house, if her true identity is really what we guessed, then she must be an extraordinary woman, and you can't find her either. For things that are not normal, this is not anxious, take your time, if she really cares about Suzi and the child, she will come again."

“Okay Fourth Master, I see.” Christopher said.

After a pause, Christopher reported to Arron again: “When I came out of the hotel where my wife was home, the man at the door told me that Xu Haili’s family of three had been beaten to death in public by those who had hated their family of three. “

Arron sneered: “It just happened to be a disaster!”

“Also, Shen Cuishan’s side has also been cleaned up.” Christopher said again.

“Very good.”

Christopher’s tone eased a little: “In the future, even if the wife’s hometown is peaceful, even if the wife’s mother returns 10,000 steps back to her hometown, she will definitely not be bullied.”

Arron sighed: “If it is really what we guessed, her roots should be in Nancheng. Now that Suzi and her children are in Nancheng, she will not go back to her hometown again.”

Christopher: “It’s also...”

Chapter 751

“In this case, you can choose a good cemetery for Suzi’s father as soon as possible.”

“Yes, Fourth Master.”

After closing the thread, Arron sat alone on the top wicker chair with his eyes closed and rested.

The matter of Suzi's hometown has been settled, and now all that is left is to take down the island.

Mother Shanna was originally a rich family on that island, but because of a change, her mother's family became victims. Even if her mother's family ran away their wealth and fled to the mainland, the ruler on that island actually chased her mother. A family chased to the mainland. Fortunately, his mother was saved by Elder Shu and saved her life.

The mother's family, parents, sister-in-law, sister, and their children were all brutally murdered. As a result, the mother stayed in this world alone. When she was sad and sorrowful, she was used by the aunt and became the outer room of his father Fu Zhengxiong, and then gave birth to Arron.

If you ask about the size of the family, the mother's home on the island is not much smaller than the Fu family.

But because of the escape, not only did my mother not wear a wedding dress in her entire life, she also never entered the door of Fu's house.

I want to come to this because of the killing of the mother's family on the island.

Mother Shanna actually had a wish before she died, but she didn't tell anyone, not even her son. However, Arron heard it when she was in a coma while she was dying, and her mother repeatedly said nonsense. I said one sentence: "Unreconciled, unreconciled, unreconciled, I have never been able to go back to my hometown to take a look at my hometown even to death."

Going back to my hometown to take a look, it was a wish my mother had always had, and Arron knew it at a very young age.

So during the years when he was in exile abroad, he had already begun preparations to break the island. It's just that six years were delayed because of searching for Suzi's mother and daughter.

Now that Suzi and the child have returned to them, and the things in Suzi's hometown have been handled satisfactorily, it is time for Arron to take down the island.

Arron closed his eyes and thought about a lot of plans, all related to the takeover of the island. He didn't go downstairs until it was time to eat, and when he came to the restaurant, he saw that Suzi and the child were already awake. The mother and daughter wore the same polka-dot mother and daughter home furnishings, tied the same ball heads, and the same polka-dot butterfly hairpins were stuck on their heads.

At first glance. Suzi is not like Shen's only mother, but very much like Shen's only big sister. At first glance, Suzi and Lilly are very similar to Arron's two daughters.

Seeing this warm and sweet scene, Arron was taken aback.

His mother Shanna had only one small wish throughout her life, that is, a family of three can live a small life smoothly, but her mother didn't get it until she died, even if Arron was cruel and cold-hearted, so that he didn't even care about brotherhood. Nian, but Arron's heart is the same as his mother. He longs for a home, his own little home.

And now, the beaming, very playful mother and daughter in front of him are his home and all of him.

"Have you seen enough, uncle?" Suzi rolled his eyes and looked at his husband playfully.

"Uh..." She has always been deserted, and occasionally speaking to him so playfully, he is a little uncomfortable.

But in my heart, it was warmed by her hook again.

The man immediately sat down to eat with his wife and daughter.

After eating, he coaxed his daughter to sleep step by step. After her daughter was asleep, he sent a few important emails in the study, and then he went to the bathroom to wash up.

After a tiring day, Suzi and Lilly both had a nap for more than two hours when they returned home in the afternoon, and he hasn't rested. This will really feel tired.

However, when the originally tired man saw the woman on the bed, he instantly fixed his eyes on the woman.

Women dress very economically and very thinly.

That ultra-short suspender nightdress is so thin that all parts are looming, and it is even more graceful under the orange light.

The woman held her small head on her elbow, and looked at the man with an extremely sweet expression in her eyes: "Arron, I have been waiting for you."

Chapter 752

Man: "..."

Even though his concentration is extremely long, he can see the woman's charming and watery eyes, and the incomparably graceful figure, the man's throat rolls and rolls instantly.

"Come on." She yelled again coquettishly.

She seldom takes the initiative, in fact, she is still in the ignorant period when it comes to hooking people. A woman who has always been deserted will not have any superb tricks at all.

However, in order to reward him for everything he did for her in her hometown, she willingly hooked him once.

She brewed for a long time while he was taking a bath.

I searched for a lot of movies, TV shows, and various scenes that she had seen in her mind. After thinking about it, she thought of such a scene.

Then, she looked for this one among the many underwear he gave her.

To be honest, Suzi blushed when she first put it on.

I have never worn such s3xy clothes.

The things he gave her, whether it was jewelry, shoes, bags, or clothes, were actually very good things.

Just like this thin nightdress like a cicada's wings, it looks like sand and a little hard, but it is very comfortable and soft when worn, it does not stick to the skin at all, and it is as soft as no clothes.

Not only that, but under the translucent material that is as thin as a cicada's wings, her skin is reflected with a soft halo, which is particularly beautiful.

No wonder fashion inventors invented such underwear.

Wearing it would really make him full of interest, lying halfway on his big bed, Suzi himself felt that he was much more charming than usual.

She looked at her man Arron in such an extremely charming posture.

Arron dived with a goshawk and rushed down towards her.

"Ah...haha!" Suzi took advantage of the trend and hid away with a smile.

However, the man was tall and long, with long arms. He could reach her as soon as he stretched out his arms. Suzi immediately frightened him and rolled over to the bed. This roll didn't matter, she felt like she was about to fall.

Suzi: "Ah..."

The man's hands were quick and quick, and a backhand dragged Suzi, who was about to fall out of the bed, back from the edge of the bed and circled him into his arms. At the same time, the man flipped over again and elbow her under him.

"Little woman! It's you! How dare you seduce me?" The man's voice was hoarse and low.

Suzi's hands were pressed by the man on both sides, and she did not struggle or resist. Instead, she gently blew in his ear with a sound like water: "You are hooked, haven't you?"

Man: "..."

He didn't answer her again, but told her with his lips.

This night is undoubtedly beautiful and happy.

Suzi hid in his arms and smiled.

He is her man.

"Husband..." The woman's hair covered his entire chest, silky and smooth, and itchy like feathers. More is warm.

"Yeah." He agreed lazily.

"How many children do you...want?" She asked this question for the first time.

“It depends on how many babies you have. You are now twenty-five and sixty years old. It should be no problem when you are born to forty-five and sixteen.” The man’s tone was very serious: “Ten, if there are more twins, fourteen and five.” A...

Suzi: “Puff...I am not a sow.”

Chapter 753

Arron: “...”

Did you say you are a sow?

Did I say you are a sow?

If you are a sow, am I not a boar!

After a little smile, she said to herself again: “I think it is better to have three children. At least one younger sister should be given to the only one, and then two younger brothers, so that two boys and two girls will have their companions. What do you mean husband?”

Arron’s tone also instantly carried a lot of longing: “Both boys and girls are good. If there are three boys, there are only so many younger brothers to protect them. When they grow up, they will be happy. If they are all girls, our family has four. A golden flower must be very beautiful when it grows up.”

“Yeah!” Suzi nodded happily: “Anything is good, as long as it is our child, we still have to give birth anyway.”

Arron: “...”

She discovered that once a woman becomes a mother, she is addicted.

I didn't want to be a sow just now, so forget it now.

It seems that even if he feels distressed about her body and disagrees with her giving birth, she herself will not agree.

The woman also drew a blueprint in her heart: "Husband, if we have four children, this house will be a bit crowded. We have to change to a bigger one, preferably with a yard. There are flowers and grass in the yard. In the back of the yard, we can also feed chickens, ducks and geese. We have two more dogs and a few cats. Then outside the yard, we lease dozens of acres of land.

We are farmers, so the fruits and vegetables that our children eat are all our own.

Chicken, duck and mutton are also my own.

OK? "

Arron couldn't help but stared down at the little woman lying on his chest.

Suddenly, she discovered that under her always indifferent and lonely appearance, there was actually a heart that longed for life, longing for stability, and longing for family.

What she portrays is not the life of urban elites.

It's a pastoral life with children, cats and dogs, and land.

Because, in her heart, she yearns for a kind of stability and warmth, a life where more relatives can be with her.

She longs for relatives.

Thinking of this, Arron suddenly turned around and shackled her under him again.

Suzi was so frightened that his hands were clenched into small fists against her chest: What are you...what are you doing again? “

The man sneered: “You want children but don’t want to work hard. When can you have children?”

Suzi said without hesitation: “Having a child...that has to be you?”

“So, I am now!”

Suzi: “...”

In the end, she didn’t know when she fell asleep. She only knew that she slept soundly and soundly at night. In her dream, she saw her mother again.

This time, the mother’s figure coincided with the tramp she saw.

She felt that the tramp was the mother.

“Mom...” She yelled, yelled, yelled in her dream, and was awakened by a sudden telephone ringing.

Suzi picked it up and connected: “Hey, who...”

Chapter 754

“Suzi!” Lanita’s proud and arrogant voice came from the other end.

Suzi: “...”

She didn't look closely at Lanita's phone number just now, but she was sure that it was definitely not Lanita's number. Hearing Lanita's voice, Suzi immediately put the phone in front of her and took a look. I found that it is a new number, and this number is so strange, it has two or three digits less than the domestic number.

What's the situation?

"Where are you now?" Suzi is a smart person, she seems to have thought of something.

"You should have guessed it, I am abroad now!" Lanita said triumphantly.

Suzi: "..."

"Suzi, I know that your husband, Arron, is capable of the sky. In China, he wants to die for three shifts alone, and that person will not survive five shifts. But I am abroad now, and I have already gone abroad. What do you think of me? "Lanita's grinning tone was full of provocations to Suzi.

Suzi really didn't expect it.

Her mind has been short-circuited for most of the day, and her mouth is speechless: "..."

At that end, Lanita guessed that Suzi must be shocked, and her tone became even more arrogant: "Suzi, you told me yesterday that your cousin Shen Cuishan is dead, I know this must be true, I Know, you say you hate me, hate my dad, I also know you must hate it, haha! Now that you heard that we are already abroad, do you hate it even more?"

Are you going to vomit blood now?

Ow, you find a basin to catch your blood..."

Suzi: "..."

It is impossible to say no hate and no anger.

Even if Lanita didn't deliberately anger Suzi, Suzi already felt her throat sweet. After she came back, she planned to find her father's tomb first, and then go to Lin Jiaying to ask the guilt. She must not spare the Lin family. As a result, Lanita told her that their family of three had already gone abroad?

Suzi desperately swallowed the fishy sweetness in his throat, and asked in a calm and cold tone: "When did you go abroad?"

"Haha!" Lanita smiled wildly: "Tell you, Ha Suzi, I found out that Lanita is fighting with you now, and my eyes are getting more and more. It's just between you and your husband. We had already decided to flee the night that Arron held a family banquet in Fu's old house.

Because, I also know your husband very well.

I know that your husband will definitely not let me go.

So, when your family of three went out to have fun together the next day, our family of three took the opportunity to escape. How about it, is it a success? "

Suzi nodded: "Very successful."

She suddenly remembered that that Sunday, that is, three days ago, when she was shopping in the mall with Galia and Rayna, she received an unfamiliar phone call, and she said "Hey" on the phone. After several times, no one was speaking at the other end. At that time, Suzi thought someone had made the wrong call.

Now, Suzi suddenly remembered and asked: "Did you call me that day when you were planning to escape?"

“Yes! I called you, how about it!” Lanita admitted.

“You are silent on the phone. Actually, you want to hear where our family of three is? If my phone is noisy, you can tell that we are outside, so you can run away in the chaos?” Suzi said .

“Well, you are indeed smart! But what’s the point of being smart? It’s over! Haha!”

Suzi: “...”

“Suzi Suzi.” Lanita suddenly called Suzi’s Confucian name.

“Yeah.” Suzi replied calmly.

“Feng Shui turns around, you see, during the eight years you lived in my house, your life has always been very bad, and then you have been in jail, but since you came out of jail, you have met Arron. Moreover, he is so pampered and spoiled. What does this mean? It means that it is your good fortune. As for me, in your company and in your old house, I have been humiliated many times, and I will almost be killed by Arron.

But I escaped now.
